

The settings on an Android device allow you to set certain rules to help safeguard your child's privacy when they are using it. For example, you can turn off location services to help protect their whereabouts about privacy, prevent targeted ads, apps and sites from viewing their information, restrict apps from accessing other functions of the phone (such as using a microphone, for example). We've produced step-by-step guides on how to do this to help you manage your child's privacy settings.

How to manage location services
